

JANARY A. BULDADORA

buldadorajanary@gmail.com | 09052545148 | Silang, Cavite, Philippines
Portfolio: jjariru.github.io/it-portfolio

PROFESSIONAL SUMMARY

Computer Science graduate, Cum Laude, with hands-on QA experience testing ERP workflows, plus projects in machine learning, web development and game development. Experienced in finding and documenting bugs, writing clear technical reports and building projects from start to finish, including a deployed task manager web app and a complete 2D game. Seeking a QA, junior developer, IT or game development role.

KEY SKILLS

QA & Documentation: Workflow Testing, Bug Reporting, QA Reports, Technical Documentation

Game Development: Godot 4.4.1, Dialogue Manager 3

Machine Learning: ResNet-50, VGG-16, dataset preparation and verification

Tools: Git/GitHub, Google Workspace, Microsoft Office (Word, Excel), Canva, ChatGPT, Claude, Zoom, Google Meet

Working Style: Attention to Detail, Self-Directed Learning, Cross-Team Collaboration, Remote Work

EDUCATION

Bachelor of Science in Computer Science, Cum Laude | Sept. 2022 – 2026

Cavite State University – Don Severino de las Alas Campus | Indang, Cavite, Philippines

PROFESSIONAL EXPERIENCE

Quality Assurance Intern (OJT) | Manual Software Testing (Remote)

- Tested E-commerce, Finance, HR, Logistics and User Management workflows for functionality, information accuracy and process consistency
- Documented 35 system and process bugs, including critical issues, with expected vs. actual results
- Wrote structured QA reports covering each issue, its impact and relevant findings for review
- Gave 15 recommendations for website and workflow improvements based on testing findings

PROJECTS

A.R.I.A. – A Requiem in Absence | 2D psychological horror RPG

- Designed and developed a 2D psychological horror RPG in Godot 4.4.1 with branching narrative, symbolic memory puzzles and multiple endings
- Implemented a dynamic guilt meter, audio-visual transitions, object-based memory triggers, scene transitions and nonlinear dialogue flow using Dialogue Manager 3

IskoTasks: Student Task Manager | isko-tasks.vercel.app (live, works on mobile)

- Task manager web app with time, weather, tasks and Spotify in one fully interactive dashboard; deployed and usable on desktop and mobile

Thesis: Driver's License Forgery Detection Using ResNet-50 and VGG-16

- Contributed to a multi-phase research project covering data organization, model development, testing and technical documentation
- Organized and verified a structured dataset of genuine and forged driver's license images

ResolvIT: Barangay Complaint Hub

- Tested complete form workflows for a complaint-management system, validating that submissions were captured accurately from entry through resolution; reviewed usability and gave structured feedback that improved responsiveness

Fur and Fiber: E-commerce Website

- Built a product catalog and blog for a small business; managed listings, descriptions and posts, keeping every page accurate and consistent

LANGUAGES

English: Fluent | Filipino: Native
