

JANARY A. BULDADORA

buldadorajanary@gmail.com | 09052545148 | Silang, Cavite, Philippines

PROFESSIONAL SUMMARY

Computer Science graduate, Cum Laude, with remote Quality Assurance experience testing a pre-release website with E-commerce, Finance, HR, Logistics and User Management features. Experienced in organizing records, preparing clear reports, and identifying errors and inconsistencies. Comfortable with Google Workspace, Microsoft Office, repetitive detail-oriented tasks, and working independently with minimal supervision. Seeking a remote Virtual Assistant, Administrative, or Operations role.

KEY SKILLS

Data Entry | Process & Workflow Documentation | Report Writing | Records Management | Attention to Detail | Google Workspace | Microsoft Office | Canva | Git/GitHub | Cross-Team Collaboration | Self-Directed Learning | Remote Work Experience

TECH PROFICIENCY

Productivity: Google Workspace (Docs, Sheets, Calendar, Drive), Microsoft Office (Word, Excel)
AI Tools: ChatGPT, Claude | Communication: Zoom, Google Meet | Design: Canva

EDUCATION

Bachelor of Science in Computer Science, Cum Laude | Sept. 2022 – 2026
Cavite State University – Don Severino de las Alas Campus | Indang, Cavite, Philippines

PROFESSIONAL EXPERIENCE

Quality Assurance Intern (OJT) | Manual Software Testing (Remote)

- Tested ERP system workflows across E-commerce, Finance, HR, Logistics, and User Management, using trial data to check functionality, information accuracy, and process consistency
- Identified and documented 35 system and process bugs, including critical issues, with expected vs. actual results
- Prepared clear, structured QA reports documenting each issue, its impact, and relevant findings for review
- Provided 15 recommendations for website and workflow improvements based on testing findings

PROJECTS

Fur and Fiber: E-commerce Website

- Built a product catalog and blog for a small business; managed listings, descriptions and posts, keeping every page accurate and consistent

IskoTasks: Student Task Manager | isko-tasks.vercel.app

- Built and deployed a task management web app with interactive scheduling and productivity features
- Designed the dashboard to organize tasks and information in one place

Thesis: Driver's License Forgery Detection Using ResNet-50 and VGG-16

- Organized and verified a dataset of genuine and forged license images; developed an Android app as a functional testing platform and prepared technical and research documentation

ResolvIT: Barangay Complaint Hub

- Tested complaint-form workflows from submission to resolution and reviewed usability end to end, giving structured feedback that improved responsiveness

A.R.I.A. – A Requiem in Absence | 2D psychological horror RPG

- Designed and developed a complete game with branching narrative, memory puzzles and multiple endings

LANGUAGES

English: Fluent | Filipino: Native
